

ARE YOU PACKING ANY OF THESE ITEMS IF YES, THIS PACKING INSTRUCTION APPLIES.

LAPTOP, CELL PHONE AND/OR OTHER LITHIUM BATTERIES

CONTAINER & PACKAGING REQUIREMENTS FOR REGULATED SHIPMENTS

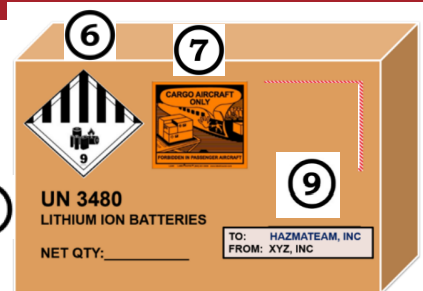

If you are packing **two (2) or less of items** above in one container **AND** there is **only one package per consignment and/or overpack**, YOU MUST FOLLOW NOS. 1 - 4 BELOW.

- 1 Use **strong outer packaging** appropriate for weight of contents (i.e. box must be rated for the maximum weight being placed in the box). If you cannot tell the weight rating of the box, please ask your supervisor and/or contact Lennox Environmental at liihazmat@lennoxintl.com or +1-972-497-7532.
- 2 Apply the marking shown to the each container (e.g. box or other outer packaging) stating UN3480 and a telephone number for additional information about the shipment.
- 3 Verify that all batteries are packed for **ZERO contact** with other items contained with batteries packed with equipment. They must be either completely wrapped in packaging (cannot contact other items) OR + and - terminals taped with **ELECTRICAL** tape.
- 4 Add the marking to the box that states "**LITHIUM BATTERIES - FORBIDDEN FOR TRANSPORT ABOARD AIRCRAFT AND VESSEL**".

If you are packing **3 or more batteries AND/OR more than 8 cells**, you must follow packing requirements No. 3 above AND Nos. 5-10.

- 5 Use a UN Certified Box as shown. 4G/Y25/S/2#USA/+CO2384.
- 6 Apply Class 9 lithium ion battery label.
- 7 Add a cargo aircraft only marking to the box.
- 8 Add proper shipping name to box. UN3480, LITHIUM ION BATTERIES.
- 9 Address label is mandatory. Listing the quantity of batteries in container on exterior is optional.
- 10 Add an overpack marking if the battery or battery cell is contained in another box or on a pallet underneath shrink-wrap AND place markings listed in No. 6, 7, 8 and 9 above also on the outer box or shrink wrap.

MODE OF TRANSPORT PROHIBITIONS FOR UN 3480 - LITHIUM ION BATTERY LOOSE (BULK):
