

ARE YOU PACKING ANY OF THESE ITEMS IF **YES**, THIS PACKING INSTRUCTION APPLIES.

LAPTOP, CELL PHONE AND/OR OTHER LITHIUM BATTERIES

CONTAINER & PACKAGING REQUIREMENTS FOR REGULATED SHIPMENTS

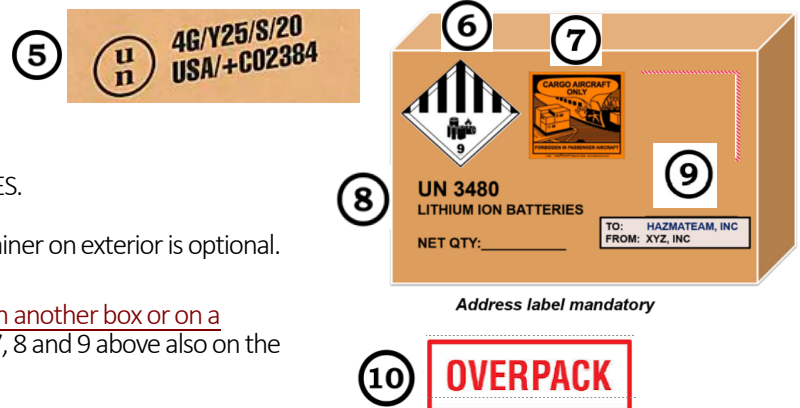

If you are packing **two (2) or less of items** above in one container **AND** there is **only one package per consignment and/or overpack**, YOU MUST FOLLOW NOS. 1 - 4 BELOW.

- 1 Use **strong outer packaging appropriate for weight of contents** (i.e. box must be rated for the maximum weight being placed in the box). If you cannot tell the weight rating of the box, please ask your supervisor and/or contact Lennox Environmental at liihazmat@lennoxintl.com or +1-972-497-7532.
- 2 **Apply the marking shown to the each container** (e.g. box or other outer packaging) stating UN3480 and a telephone number for additional information about the shipment.
- 3 **Verify that all batteries are packed for ZERO contact with other items contained with batteries** packed with equipment. They must be either completely wrapped in packaging (cannot contact other items) OR + and - terminals taped with ELECTRICAL tape.
- 4 Add the marking to the box that states "**LITHIUM BATTERIES - FORBIDDEN FOR TRANSPORT ABOARD AIRCRAFT AND VESSEL**".

If you are packing **3 or more batteries AND/OR more than 8 cells**, you must follow packing requirements No. 3 above AND Nos. 5-10.

- 5 Use a UN Certified Box as shown. 4G/Y25/S/20#USA/+C02384.
- 6 Apply Class 9 lithium ion battery label.
- 7 Add a cargo aircraft only marking to the box.
- 8 Add proper shipping name to box. UN3480, LITHIUM ION BATTERIES.
- 9 Address label is mandatory. Listing the quantity of batteries in container on exterior is optional.
- 10 Add an overpack marking if the battery or battery cell is contained in another box or on a pallet underneath shrink-wrap AND place markings listed in No. 6, 7, 8 and 9 above also on the outer box or shrink wrap.

MODE OF TRANSPORT PROHIBITIONS FOR UN 3480 - LITHIUM ION BATTERY LOOSE (BULK):
